

Alamitos Bay Marina

Dock Status

Welcome to the repair status section

(This section is under construction please return soon for full updates)

In view of the state of disrepair and the unfortunate delay of the rebuild, we are working closely with the Maintenance Department to keep everyone informed of the condition of the docks and the efforts to keep them in a safe as possible condition, before and during the upcoming rebuild.

Inside you will find the areas of the docks in need of repair , the work orders associated with them and their estimated date of completion. Also we will status the sections that have been repaired.

If you see areas that are in need of repair and that are not yet listed in this section, send us an email at alfredo.fernandez@lbmboa.org so we can record it and help you follow up.

To report a problem and obtain a work order you can call Marina Maintenance at 562) 570 -1582 during working hours or after hours at 562) 570 – 3101
